

**POMERENE OPPOSES  
5-YEAR RAIL PLANS**

Ohio Senator Declares Railroads  
ought to Be Returned Soon to  
Their Right Owners.

**RAPS DIRECTOR GENERAL**

Democrat Plays Orders Issued by  
Times and Wants Commission  
Given Back Its Powers.

(CHICAGO, March 19.—Senator Pomerene, of Ohio, a democratic member of the interstate commerce committee, speaking here tonight before the American Railway Engineers society, opposed extending the period of government control over railroads beyond the 21 months intended by congress. He asserted that the proposed five-year extension was urged only for the purpose of experimentation.

Senator Pomerene also urged early termination of the functions of the interstate commerce commission with the same powers and the fixing of a fair standard return upon the capital invested for the railroads.

"Government control," he asserted, "was intended for war purposes and ought not to be continued for peacetime unless some assured, positive, speculative or conjectural, advantage can be gained thereby."

The principles of common sense suggest that this proposal, which does not belong to the government and which does not belong to Mr. Times (director general), should be given back to the owners within a reasonable time, and then if the people of the country have sufficient confidence in the government to let it keep the railroads, legislation confiscating this property and pay for it as an honest government ought to pay for it. But we cannot afford to take five years to evolve plans and while we are evolving the plans to keep in the government's possession property which has turned over to it as a war measure for the purpose of experimentation."

Senator Pomerene criticized the railroad administration for ignoring the interstate commerce commission in its making and for what he called "incomprehensible orders setting aside laws."

"Not one of them," declared the senator, in referring to the administration orders, "was issued out of regard for the convenience of the public. Not one of them helped to win the war. All of them aided in arousing a spirit of discontent among the people. I deny that the director general had the power to issue these executive orders, but if he did, the same right policy should have forbidden it."

Without doubting that the money was needed, Senator Pomerene said that in ordering the 25 per cent freight rate increase more time should have been given to permit shippers to adjust their business to meet the advance. This increase, he said, was a good thing for the railroads of many people.

Senator Pomerene expressed a belief that the public recognized the

**Taking Mother "Over the Top"**

Returned U. S. Hero of Twenty-seventh Division, Telling Mother and Sweetheart About His Part in the War.

Thousands of families are being gladdened daily nowadays by the return of their soldier boys from overseas. These home comings end months of anxiety and worry for fathers, mothers, wives and sweethearts. To many folk the scant news they received concerning the whereabouts and doings of their hero only left them wondering as to what dangers he faced; what he had to do and how he lived. So now they are hearing first-hand, where he was and all about it all. The scene above is being enacted daily in homes all over the nation.

need for the general advance in that \$25,000 had been placed to his credit in a Kansas City bank.

To Sell to France.

PARIS, March 19.—Goods, railroads, warehouses, hospitals and barracks built by the American expeditionary forces, to the value of \$165,000,000 will be sold to France for the best figures the American liquidation commission can obtain.

None of these can readily or profitably be removed and the only alternative is to sell at the best bargain.

Workers Obtain Increase.

PAWTUCKET, R. I., March 19.—Loom-fitters' union officials received word today that the war labor board had granted the demand of textile workers in the Blackstone Valley for a 15 per cent increase. The award dates back to July 1 and affects 10,000 employees.

## Skin Eruptions Are Danger Signals

They Are Nature's Warning  
of Impure Blood.

The skin is composed of two distinct layers. One is known as the epidermis, or outer skin, which has no fibres, and serves principally as a covering to the body and a protection from outward dangers to the delicate flesh beneath. The other layer is known as the derma, or true skin, and is composed of elastic fibres, fat tissues, glands, lymphatics, nerves, etc. The thousands of tiny veins and arteries with which it is interlaced constantly supply every fibre and tissue with healthful properties from the circulation to keep the skin smooth and perfect.

This is changed, however, when the blood becomes infected with humors, acids or impurities. Instead of constantly supplying rich, nutritive properties to the skin, the circulation deposits the acrid impurity with which it is contaminated, into the sensitive fibres and tissues. This causes irritation and inflammation, which splits or breaks the thin outer cuticle, while the tissues beneath ulcerate and discharge upon the surface in the form of Eczema, Salt Rheum, Tetter, etc. There is likewise a dry form of skin disease, such as Acne, Psoriasis, etc.

Just as long as the blood remains pure the skin will be free from eruptions, but when the blood becomes affected with acids and humors its nourishing and healthful properties are lost, and its acrid, humor-laden condition causes inflammation of the delicate tissues and fibres of the pores and glands, and the effect is shown in one of the various forms of skin diseases. In this condition the healing property is frequently

lost.

Why will you expect to be cured by the use of local treatments, such as ointments, salves, lotions, etc., when you no doubt have proven to yourself that such remedies afford only some temporary relief when proper treatment of the blood will give permanent relief of the torturing disorder. Don't temporize or try to treat your skin when your blood is at fault.

With your skin disease you have only to recognize the importance of pure, rich blood in preserving health, and that the source of your trouble is in the blood.

Remove the cause, which is not in the skin, but in the blood itself, and you will find the permanent relief you have been seeking for so many years.

S. S. S., Nature's great blood purifier, is guaranteed purely vegetable, made entirely of botanical agents, gathered directly from the heart of Nature's forest, and the ability of S. S. S. to relieve skin diseases of every character comes from these blood-purifying properties abundantly supplied by Nature, who has placed its most valuable and effective agents in S. S. S. for putting the blood in order.

Do not delay, but go to your druggist at once and begin taking Nature's remedy, S. S. S., which goes down into the circulation, restores the blood to health and removes entirely the cause.

If yours is a peculiar case, we invite you to write our head physician, who will give you full instructions, without charge. Address, Chief Medical Advisor, 156 Swift Building, Atlanta, Ga.—Adv.

**COLLECTION OF OLD  
CLOTHES NEXT WEEK**

**Rotary Club Will Assist Local Red Cross in Foreign Relief Work.**

Another campaign for used clothing is to be launched by the local Red Cross next week having been set as the time for collecting clothes for both sexes of all ages of the refugee population in France, Belgium and the far east.

The Rotary Club will be in charge of the campaign as usual and details of arrangement as to when and how the clothes and bed clothing shall be gathered, will be made within a few days.

Only warm, durable clothing and sheets, bed ticking, sheeting and other bed clothing will be acceptable. Tickets are used, not to clutter the work of collecting the clothes to contributing fancy dresses, straw hats, umbrellas, cloaks, gloves and the like. People residing in the countries named have no use for those things, and only articles which can well be accepted.
